## Screening and Online Events

ICAV will be hosting a number of screenings of this latest **adoptee led documentary** that explores Nancy Verrier's book, The Primal Wound. This is the first time the concepts in The Primal Wound are being thoughtfully analysed and discussed by an adoptee and her biological mother. Preview link for the documentary can be found here <https://youtu.be/O-AELxDdr-E>

If you would like to view the documentary and join into ICAV's online adoptee group only events, you need to RSVP. We ask for a gift of \$10USD to help us with the licence and hosting. This will allow you to view the documentary for 7 days leading up to the online event being hosted in your region.

ICAV Representatives will host the online event, facilitating connection with other intercountry adoptees in a small group setting (20 adoptees max per group) who wish to discuss the documentary and relevant issues raised.
